

STARLINK | MINI TRAVEL KIT

What's in the Box

Mini Travel Sleeve

Mini Bumper Case

Accessories Bag

1 | Install Bumper Case

Ensure the Starlink logo is aligned to the back and top of the Starlink Mini, correctly oriented so it is legible. Insert the top corner of the Starlink Mini into the bumper case and slowly work around all edges until the case is fully installed.

2 | Removal

The Bumper Case is designed with a snug fit to better protect your Mini. To remove the Mini from the Bumper Case, start with the "Starlink" logo face up and firmly pull one corner of the case until it pops partially off the Mini. Continue with the other three corners to separate the case from the Mini and pull firmly to fully remove.

INSTALLATION CONDITIONS

⚠**CAUTION!** If you are uncomfortable with any part of the installation process, do not attempt - contact a professional to install your Starlink. Starlink is not responsible for injury or damage to property caused by the installation process.

Kit Installation for Use on Moving Vehicles.

⚠**CAUTION!** Take extra care if installing a Starlink for being used on a moving vehicle or vessel. Ensure that the mount is installed firmly on a structurally sound, horizontal surface away from other equipment to give your Starlink a clear view of the sky. Equipment falling off the vehicle due to poor installation practices can cause serious accidents resulting in bodily injury, do not mount the Starlink on any vehicle or vessel if the mount structure is not stable, or if it cannot be properly secured as described in this guide. Ensure the installation on vehicle or vessel is compliant with local Department of Transportation or maritime regulations.

⚠**WARNING!** Mounts are not designed for high winds, hurricane or tornado wind loads. Tethering should be used in all cases to prevent failure in an unexpected wind event. See installation instructions before connecting this equipment to the input supply.

⚠**WARNING!** To avoid personal injury and/or damage to the property when drilling, take caution and follow basic safety procedures, including:

- Wear appropriate eye, hand, and face protection.
- Avoid studs, electrical wiring, and water lines when drilling. Drilling into any of these can lead to fire, shock, injury, or death.
- Drill at a slight downward angle from the home interior to the home exterior and thoroughly apply sealant. Improper drilling and sealing may lead to water and/or bug intrusion and/or damage.
