

What's In The Box

Gen 3 Router

Starlink Plug

RJ45 Cover

Starlink Cable  
5 m  
(16.4 ft)

1 | **Ensure your Starlink is Setup**

Start by making sure your Starlink is set up and connected to the internet prior to setting up your Gen 3 Router. When connected to the internet, the LED light on the Advanced Power Supply will be solid white.

2 | **Remove Plugs**

Remove the plugs from the ethernet port on the Advanced Power Supply and the WAN port of the Gen3 router.

### 3 | Connect Router

Run the provided 5m Router Cable from the ethernet port on the Advanced Power Supply to the WAN port of the Gen3 router

#### INSTALLATION CONDITIONS

**⚠CAUTION!** If you are uncomfortable with any part of the installation process, do not attempt - contact a professional to install your Starlink. Starlink is not responsible for injury or damage to property caused by the installation process.

##### **Kit Installation for Use on Moving Vehicles.**

**⚠CAUTION!** Take extra care if installing a Starlink for being used on a moving vehicle or vessel. Ensure that the mount is installed firmly on a structurally sound, horizontal surface away from other equipment to give your Starlink a clear view of the sky. Equipment falling off the vehicle due to poor installation practices can cause serious accidents resulting in bodily injury, do not mount the Starlink on any vehicle or vessel if the mount structure is not stable, or if it cannot be properly secured as described in this guide. Ensure the installation on vehicle or vessel is compliant with local Department of Transportation or maritime regulations.

**⚠WARNING!** Mounts are not designed for high winds, hurricane or tornado wind loads. Tethering should be used in all cases to prevent failure in an unexpected wind event. See installation instructions before connecting this equipment to the input supply.

**⚠WARNING!** To avoid personal injury and/or damage to the property when drilling, take caution and follow basic safety procedures, including:

- Wear appropriate eye, hand, and face protection.
- Avoid studs, electrical wiring, and water lines when drilling. Drilling into any of these can lead to fire, shock, injury, or death.
- Drill at a slight downward angle from the home interior to the home exterior and thoroughly apply sealant. Improper drilling and sealing may lead to water and/or bug intrusion and/or damage.
